Skills

Java Node.js SQL RESTful APIs
React PHP CSS C# HTML
JavaScript Java frameworks Kotlin
Firebase Python

Certificates

- Learning program in Python for Beginners Centre for Open & Distance Learning (CODL) University Of Moratuwa
- Learning program in Web for Beginners Centre for Open & Distance Learning (CODL) University Of Moratuwa

Profile

Full Stack Web Developer with a solid foundation in modern web technologies and software engineering. A student of Software Engineering simultaneously studies textbook material while practicing front-end development with Node.js and MySQL and back-end development with React and Flutter. My dedication spans from pursuing study in addition to working together with others to develop scalable applications that target end-users.

Education

Higher National Diploma in Software Engineering
National Institute of Business Management, Galle

Mar 2024 - Present

Diploma in Software Engineering
National Institute of Business Management, Galle
Cumulative GPA: 3.81/4.0 (Distinction)

SANGHAMITTHA BALIKA VIDYALAYA
Galle

Projects Experiences

Project On Dedicated Economic Center Management System (HND final project)

Developed a web-based management system for a Dedicated Economic Centre using **React**, **Node.js**, and **MySQL**.

<https://github.com/MLdivyaLiyanage/GAHDSE241F-dedicated-economic-center>

Project On Highway Bus Seat Booking System

Built an online Highway Bus Seat Booking System using **HTML**, **PHP**, **CSS**, and **MySQL** with a user-friendly interface for viewing availability, selecting seats, and booking tickets. Integrated secure payments.

<https://github.com/MLdivyaLiyanage/Highway-Bus-Seat-Booking-System->

Project on Traveling Agency

The Traveling Agency System, built in Java, streamlines travel bookings by managing customer details, itineraries, and payments efficiently, ensuring a smooth user experience.

<https://github.com/MLdivyaLiyanage/travelingAgency>

Project on Coffee Shop Online System

A **Kotlin**-based coffee ordering app with **Firebase Realtime Database**, allowing users to order coffee, food, and soft drinks.

https://github.com/MLdivyaLiyanage/Coffee_Shop_online

Project on Computer Shop Management System

Developed a Computer Shop Management System using **React.js**, **Spring Boot**, and **Postman** for API testing.

<https://github.com/MLdivyaLiyanage/ComputerShop>
